

December 13 at 10 AM at Reno City Hall 1st and Virginia

The City of Reno intends to create a new TAX upon the backs of Reno Property Owners including Schools (taking \$ away from funding teachers and staff). This is a Never-Ending, Ever-Increasing Cost

Reno City Council hereby finds that the fee increase ...is necessary for the continuation or expansion of the purpose for which the Stormwater Utility enterprise fund was created,...

Their BS: 1) Prevent flooding:

We already have a Flood Authority and pay sales tax for that!

2) Protect Water Quality: We already have a Water Authority and pay sewer fees of about \$500 a year residential, far more than most areas.

3) Maintain, Replace or Repair aging infrastructure: That's why we already pay taxes for these General Fund purposes. avoid costly emergency responses: Who's fault is that?

***Various legal experts believe this is a Tax not a Fee. Litigation is almost certain. Ask Reno to seek an Attorney General Opinion and postpone this bad idea. Reno City Council, Dec 13 at 10 AM, 1st and Virginia**
